A Georgia editor who has been up in Northern Georgia reports the wheat crops to be fine and the villages pretty much deserted, as the farmers are "knuck-ling" to the harvest. That's the right-sort of knuckling for the South.

The Washington papers say that on Monday last Judge Fisher, presiding in the Criminal Court, ordered the Marshal to summon a number of colored citizens to fill vacancies in the grand and petit juries, one term of which was commenced this morning. A list of nine was prepare moned this afternoon. Before the close of the week this new element will be repre-sented among the white jurors.

The Charleston (S. C.) Courier of the 18th inst. says the interest due on the bonds and registered stock of the State of South Carolina since July 1, 1867, will be paid on and after July 1, 1869. The action of James Watson Webb finister to Brazil, in demanding his pass-orts, because of some difference between nimself and the Bruzilian Secretary of War relative to the Settlement of the American claim against that Government for the ship Canada, was not dictated nor authorized by the State Department. In this whole matter Mr. Webb has acted olely on his own responsibility and with-ut consulting the Secretary of State. In Boston they complain that there sons were in doubt as to whether any persons were on the ears at the moment. The cars chased each other over the precipies with a sliding, bounding, jumping motion that reminded one of a flock of sheep jumping in a crowd from a height. Thir-teen cars disappeared, but the pile was large enough to support thirteen more above, which were accordingly saved. The engineer, Ryan, was driving at the deavor to get up steam, so that when he reversed there was not steam enough to check the onward progress of the train.
